Dictator Threatens to Capture  
American Vessel Loaded  
With Arms.

## NAVY READY TO GIVE BATTLE

Three Nations Are in Oil Pact—Con-  
stitutionalists Capture Three  
Towns, Two in State of Vera  
Cruz and One in Colima.

Washington, June 5.—Mediation may be brought to naught and warlike conditions re-established in Mexico if General Huerta persists in his purpose to blockade Tampico.

President Wilson and Secretary Bryan have determined to maintain Tampico as an open port. Not only have they sent instructions to this effect to Rear Admiral Badger, commander-in-chief of the North Atlantic fleet, but they have notified the mediators that they do not consider the attitude adopted and ordered enforced as in any way violating the agreement to suspend hostilities. The mediators are not of this view. They hold the opinion that the United States has no right to take any steps which constitute an interference with Huerta in his operations against the constitutional forces.

The administration, however, claims that a blockade of Tampico might create many questions of international importance. Looking at the matter from the larger point of view the administration holds it to be desirable to prevent Tampico from being indefinitely closed and the oil fields subjected to the danger of destruction by continued military operations.

## U. S. Ships May Fire.

It is not believed in Washington that the commanders of the Mexican gunboats will disobey the orders that Rear Admiral Badger will give them. If they persist in blockading, or if they should attack the steamer Antilla, which is bearing munitions of war to the constitutionalists, short work would be made of them.

A tripartite agreement among the United States, Great Britain and the Netherlands to protect their citizens from spoliation in the Mexican oil field was announced. This says:

"Appreciating the great injustice to the operators, who for their safety were compelled to leave the district, and so unable to comply with their contracts and legal provisions, the three governments have formally agreed that they will not support diplomatically any claims to interests in the oil regions acquired directly or indirectly by their respective nationals since April 20, 1914, which in any way were affected by cancellation or confiscation resulting from the inability of the bona fide owners to meet their contractual or legal obligations because of military operations or the disturbed political state in and about Tampico and Tuxtepec."

"This agreement in no way, however, affects any case in which the owner could have performed his obligations, or any case of legitimate transfer."

## CREATES SCENE IN COURT OF THE KING

MILITANT DAUGHTER OF LADY  
BLONFIELD CAUSES EXCITE-  
MENT IN BUCKINGHAM PAL-  
ACE LAST NIGHT.

(Associated Press.)

London, June 5.—Later—Miss Mary Blomfield, daughter of Lady Blomfield, was the woman who created the scene before the King in Buckingham palace last night when she threw herself on her knees before King George. Miss Blomfield was the only woman concerned in the incident, although her sister was requested to leave the palace after Miss Blomfield had been ejected.

London, June 5.—The king and queen held court at Buckingham palace last night and in spite of all precautions a militant suffragist gained access to their presence and caused an interruption to the presentations.

As she was passing the king the suffragist dropped on her knees and shouted: "Your majesty for God's sake do not use force!"

The woman was attired in court dress and her action caused profound astonishment. She continued to admonish the king, but her words were inaudible, as the conductor of the band in the gallery, quick to observe the incident, signaled to the band to play louder, and the woman's voice was drowned.

She was immediately removed from the room and handed over to the police. The name of the woman is not known, and close inquiries are being made as to how she obtained a card of admission.

The scene, which gave a shock to those in the immediate vicinity of the royal circle, was very brief, and the assemblage generally had scarcely any knowledge of what was transpiring.

The incident is calculated to produce a feeling of still greater exasperation in the public mind and renewed demands for strong measures to suppress the suffragist agitation.

Neither the king nor any member of the royal circle paid the slightest attention to the incident.

According to the Daily Chronicle the demonstration was made by two titled women, sympathizers with the suffragist movement, both of whom had been previously presented at court and were entitled to cards for all court functions.

## NEW BOILER ARRIVES FOR WATER STATION

HOUSING FOR NEW PUMP UNDER  
WAY—DIXON TO HAVE FINE  
WATER SUPPLY SYSTEM.

The new boiler for the Dixon Water company's pumping station has arrived and will be installed at once. The boiler, built by the Kewanee Boiler company, is large enough to run the powerful new pumping turbine soon to be installed there. A force of men accompanied the boiler to this city to install it, the work to take about a week. The new pumping engine is expected soon and the addition in which it will be housed is started. The work will be rushed and it is expected the new equipment will be in operation within six weeks.

The new equipment will be used with the well being drilled across the street from the pumping plant. Work there is progressing slowly owing to a strata of rock being encountered which packs about the big drill, preventing its operation. This necessitated casing the shaft at the 500 foot point and delayed drilling for about three weeks. The well is about 600 feet down and must go several hundred feet further.

Resolved: That the mileage of the Lincoln Highway as it is now known and established between the Indiana line on the East and the Mississippi river on the West, be arbitrarily divided into four parts having regard for the fact that the miles of division fall between towns or cities in which are located Consuls of the Lincoln Highway, and the name of each town or city, and its local Consul be shown in such subdivision, and be it further

Resolved: That 2000 barrels of cement be allotted to each of the four divisions to be completed for by the townships in each said subdivision under the following general terms:

(C.) Cement allotted to go to the Township agreeing to do the most permanent road construction, using concrete, in connection with the 2000 barrels of cement allotted.

(D.) Construction to be on Highways integral with the Lincoln Highway and so marked with the regulation marker.

(E.) The cement allotted by the Association and competed for by the Townships, to be used in constructing a cement road, at least ten feet in width with gravel or macadam shoulders as may be allowed by the State highway commission.

(F.) The general terms of the letter written by the Vice-President of the Association to the State Consul, and in his possession, to govern.

(H.) Due regard for worst stretches of dirt or unimproved roads to prevail in the selection by the Townships.

And be it further  
Resolved: That the State Consul name a commission to carry out the terms of this Resolution.

Following the terms of the resolution the State Consul named the following to act as a commission, to be charged with seeing that the terms of the resolution and the letter of the Vice-President of the Association be fully complied with and to allot the cement under the various terms: The State Highway Commissioners of the State of Illinois.

## HIGH SCHOOL TEAM'S EXCELLENT RECORD

UNION HILL SCHOOL BASE BALL TEAM IS BEST IN THIS SECTION OF THE STATE.

## HAVE ENTERED CITY LEAGUE

With the Close of School, The Team Becomes the Brunswick in the City League Race.

The Dixon Union High School team has just completed its season and has not been defeated by any High School team this year.

This aggregation is one of the fastest high school teams in the state, and rightfully claims the downstate High School championship for this year, and also for the last season. The boys have played clean and hard base ball and have fully merited the victories of the last two years. They should be proud of the record of only one defeat in the past three years by the fast Paw Paw school team, of three years ago, and occurred on a date on which Ackert and several other regular players were unable to be in the game.

It is safe to say that this record is one not equalled by any other High School team in the state as in this time the Union team has met with some excellent bunches of ball players, all of which have bowed down to Ackert and the exceptional support he was always accorded.

In claiming the down-state championship, the past two years, the Dixon team has acted fully within its rights, since the only other undefeated down-state teams, Freeport (last season) and Bloomington (this season) have refused to accept the challenge of the local boys. Teams defeated in this time are, Sterling High School, De Kalb, Rochelle, Paw Paw, Morrison, Polo, Rockford, Mount Morris and others.

The fast High School teams in and around Chicago, that regularly claim the State Championship have been challenged for the past three years by the local school managers and they have never been able to schedule a game with these. This has caused much speculation upon the parts of down-state high school organizations, for it has been the object of these organizations for several years past to arrange a meeting with down-state Champs and the suburban and city winners. While the season of the local high school is closed, the team will still consider a game with any of these teams.

The exceptional string of victories won during the past three years is due to a large measure to the training received by the lads, from Joseph

Valle of this city. As coach and manager, he has developed some excellent ball players out of local high material and too much cannot be said in praise of his skilled and consistent, yet disinterested coaching, for he has never, at any time, received any pecuniary reward for his valuable services. Valle is responsible for several Dixon players who are attracting considerable attention in places other than Dixon, and where they really appreciate good ball playing. Joe Keenan, a catcher on the team last year, has been the wonder of Lyola college this season, and has been picked by the Chicago Gunthers as the second string catcher. Curran, the short for the past two years has attracted considerable attention in Illinois semi-pro circles and recently was given a try-out by the fast Princeton Independent team, when he made a successful showing. Contryman and Woodvat, two of the fielders last season have made names for themselves as promising Freshman material at the University of Illinois.

Duffy, the fast third sacker has also been offered a try-out by the Princeton team, but has repeatedly refused the offers of one of their scouts, who was charmed by the general form that he displayed. Lord, the second baseman last year, is playing good ball, as a Freshman at Knox College.

Dixon victories this year, as they have been in the past, are due in a great measure to the pitching of Harris Ackert. Lefty Ackert is easily one of the best amateur pitchers in this section of the state. His work has always been extremely consistent and at times actually sensational and has attracted considerable circles.

## INTEREST AWAKENS IN CITY LEAGUE RACE

MEETING OF STARS AND I. N. U. TOMORROW WILL ATTRACT THE FANS.

With the meeting of the Stars and I. N. U. teams of the City League at Lincoln park tomorrow afternoon and the game between the Buster Browns Brunswicks Sunday will start the race for league honors and interest in the contests will show a marked increase each week.

The first games played last Saturday and Sunday showed the manager of each team the places where they must strengthen, and during the present week plans for the race have been evolved by each of the four organizations making up the league. One thing is certain, none of the teams is going to have a walkaway with the bunting and some hot times are assured before the season closes Sept. 15th.

McFarland Empire.

Tomorrow's game between the I. N. U. and Stars, who are tied for the first place, will have an additional attraction in the presence of Packey McFarland, the parliat, who will umpire the contest. The game begins at 3:30 sharp and the probable lineup is:

### NOTE FROM LAKE WRECK

Crumpled Paper Tells How Steamer Henry B. Smith "Broke in Two."

Sault Ste. Marie, June 5.—From a crumpled piece of paper covered with grease spots can be worked out the story of the fate of the steamer Henry B. Smith, which left Marquette in the terrific storm of last November and has not been heard from. The paper was picked up in a bottle by surfmen at the Vermilion life-saving station. It read as follows:

"Sunday morning—To the Hawgood company, Cleveland (Flinder please forward): The Henry B. Smith broke in two, opposite No. 5 hatch, about twelve miles east of Marquette. We are having an awful time. OLIVER."

Not a person was saved and only one body was found—that of the chief engineer—which was washed ashore on the Canadian side.

**DUMPED EGGS IN RIVER**

**DUCKINGS SWAM ASHORE.**

Memphis, Tenn., June 5.—When United States Marshal J. Sam Johnson went to the Mississippi river yesterday, to destroy a barrel of duck eggs condemned by government pure food inspectors, he broke several shells and the ducklings swarmed on top of the water and swam ashore. The eggs were shipped a month ago from a dealer in Texas, who packed them in cotton seed, which government officials say created heat enough for life in the eggs.

## FRECKLES

Don't Hide Them With a Veil; Re-  
move Them With the Othine  
Prescription.

This prescription for the removal  
of freckles was written by a promi-  
nent physician and is usually so suc-  
cessful in removing freckles and giv-  
ing a clear, beautiful complexion that  
it is sold by druggists under guaran-  
tee to refund the money if it fails.

Don't hide your freckles under a  
veil; get an ounce of othine and re-  
move them. Even the first few appli-  
cations should show a wonderful im-  
provement, some of the lighter freck-  
les vanishing entirely.

Be sure to ask the druggist for the  
double strength othine; it is this that  
is sold on the money-back guarantee

#### To Entertain.

dining room beautifully decorated  
with flowers. The center piece  
was a huge bouquet of syringas and  
peonies, while the living room was  
a fairy land in roses and white  
syringas.

At a late hour the guests bid the  
their host and hostess adieu with  
the vote that the evening had been

nounced later.

#### HIS NATIONALITY MADE PLAIN

Auditor's Shrewd Comment on Hear-  
ing Peculiar Statement of Cele-  
brated Astronomer.

Sir David Gill, the Scotch astron-  
omer, was no dry-as-dust scientist. His  
greatest contributions to science, per-  
haps, were his measurements of stel-  
lar space, and to bring home to his  
audiences just what progress had been  
made in this branch he frequently told  
a good story on himself.

He was speaking once on the accu-  
racy of mechanical operations as com-  
pared with those of fifty years ago.  
He pointed out that half a century ago  
an error of a second of arc was con-  
sidered a very small quantity in meas-  
uring the distance of a star, "that  
being equivalent to the measurement  
of the diameter of a three-penny  
piece at a mile off; whereas we  
could now measure within one-hun-  
dredth of a second of arc, which was  
like measuring a three-penny piece at  
a distance of one hundred miles."

Then a voice was heard from one  
of Sir David's listeners.

"Ye'd know he's a Scot," said the  
voice. "Na'an else'd bother his head  
about a three-penny bit a hundred  
miles off."

#### One Disadvantage.

It was the day that Uncle and Aunt  
Lewis had set apart for their annual  
visit to the city and among their var-  
ied and prospective purchases was a clock.

"Now," said the dealer, "we have  
an elegant line of clocks. Here is  
something particularly attractive.  
When the hour begins, a bird comes  
out from the top and sings 'Cockoo!'  
For instance, I turn this hand to seven  
o'clock, and the bird comes out and  
sings 'Cockoo!' seven times."

"Waal, waal! Don't that beat all!"  
cried Uncle Lewis, enthusiastically.  
"Mother, let's have one!"

But mother was more conserva-  
tive.  
"No, no!" she replied, meditatively,  
still eyeing the clock longingly. "That  
sort of thing might do for folks that  
have got lots of time on their hands,  
but it'd take me half the forenoon  
every day to take care of that  
bird."

#### Resetting a Shoulder.

A dislocated shoulder may be re-  
placed with scarcely any pain by the  
following procedure, according to Dr.  
Julius Caesar of Leicester, England:

Divest the patient of his coat and  
waistcoat. Place him on the ground in  
a sitting posture. Grasp the wrist of  
the dislocated arm and have a third  
person grasp the wrist of the other  
arm. Raise both arms simultaneously  
over the head, taking care to keep  
them parallel, and extending them up-  
ward till the patient is just raised  
from the ground. At this point a click  
is heard and felt. This is the sound of  
the arm bone going back into its  
socket.

There are some dislocated shoulders  
that cannot be reduced this way, but  
they are the rare exceptions.

**HOW THE THREE STAND.**  
The three chairmen of the national congressional committees—Representative Woods of Iowa, Doremus of Michigan and Hinebaugh of Illinois—have sounded the first notes of the 1914 campaign.  
For the democratic committee, Mr. Doremus disregards congress as an independent co-ordinate branch of the government and treats it merely as accessory to the executive. He says:  
"Americans have confidence in Woodrow Wilson. They rejoice in his patriotism and unselfish devotion to duty. They will in the coming election return a democratic congress to support him in his constructive policies of progress and reforms. They will not elect a republican congress that for two years would only embarrass, harass and antagonize him in the work of restoring this government to the people."  
Mr. Hinebaugh, speaking for the progressive party, says:  
"The progressive party is pursuing a straightforward course, perfecting its local and state organizations in every northern state and in many southern states. After the 1914 campaign, it will clear the decks for action in the greater battle of 1916. A political revolution is on, and revolutions never go backward."  
Representative Woods, chairman of the republican committee, says:  
"I believe the people are disappointed with the democratic administration both legislative and executive. It has afforded none of the benefits promised and certainly has wrought much of the damage feared. It has injured agriculture and stagnated all productive and industrial activity."  
The foregoing statements give the plans and status of the three political parties with clearness. It is evident that the democrats, encouraged by the shattered front their opponents presented two years ago, plan and expect to send Mr. Wilson a congress that will act with him in full accordance.  
The progressive party seems to be only casually interested in the next congressional election, but it is vitally interested in extending and perfecting its organization all over the union, with the view of making the coming presidential election a grand sweep of the nation, when all the faithful are confident of getting meal tickets.  
But the common people, the voters, the workmen in the fields and in the mills, have an eye to the restoration of "the full dinner pail," the manufacture by American labor of American consumed goods, the opening of American factories and the exclusion of goods from foreign countries, manufactured by underpaid help and sold here at prices that, although they benefit American competition, do not appreciably lessen the cost to the ultimate consumer.

**WICKERSHAM FOR PRESIDENT.**  
The Bloomington Pantagraph suggests George W. Wickersham for the republic a candidate for president in 1916. The Decatur Herald admits that Wickersham is a most capable man, but demurred on the ground that he is not well enough known. The Herald suggests "The scholarly, warm-blooded and progressive young statesman, Senator Borah, of Idaho," and the Pantagraph returns with the compromise of Wickersham for president and Borah as a strong running mate with General Wickersham, the Idaho republican as the vice presidential nominee. Of Wickersham, the Pantagraph says:  
"The fact that Mr. Wickersham was little known when he became a member of the Taft cabinet in 1909 does not argue that he is little known now. The truth is that as chief legal authority of the nation he brought the administration of President Taft into an enviable place in history through his successful prosecution of the trusts. This criticism would have applied equally to Charles E. Hughes, of New York, and Joseph W. Folk, of Missouri, both of whom were unknown until they accomplished great legal work for their respective states. It would also apply to Charles S. Whitman, of New York, who was unknown to the people until he made his record as public prosecutor and who will undoubtedly be made governor of New York on that record."

**Into the Sunlight**  
BY WALT MASON  
Oh, cut out the vain repining, cease thinking of dole and gloom!  
Come out where the sun is shining, come out of the cave of gloom!  
Come out of your hole and borrow a package of joy from me, and say to your secret sorrow, "I've no longer use for thee!" For troubles, which are deluding, are timorous beasts, I say; they stick to the gent who's brooding, and flee from the gent who's gay. The gateways of Eldorado are open, all o'er the earth; some out of the House of Shadows, and dwell in the House of Mirth. From Boston to far Bobcaygeon the banners of gladness float; oh, grief is a rank contagion, and would perish, or leave us, on sable wings, if only mirth is the antidote. And most of our woes we didn't cherish and coddle the blame fool things. Long since your woes would have scampered away to their native fogs, but they have been fed and pampered like poodless or hairless dogs. And all of these facts should teach you it's wise to be bright and gay; come out where the breeze can reach you, and blow all your grief away.

**These "Good Old Times."**  
We may as well demolish the time-worn superstition that the good old times again are all we need to make us happy. There never were any good old times. "Say not thou, What is the cause that the former days were better than these," chides the preacher, showing that the complaint is as old as human nature. Hear Homer: "Few sons are like their fathers; most are worse, only a few are better." If in Homer's opinion—and he puts the words into the mouth of Athena speaking, in the guise of Mentor, double-distilled wisdom—most men are worse than their fathers, then upon what degenerate days must we have fallen! Given a length of time like that between ourselves and Homer and the complaint falls to pieces of its own absurdity.—Fannie H. Eckstorm, in the Atlantic.

**Refuse in Rivers.**  
Some experiments were recently conducted to determine the rapidity of the movement of garbage and other refuse which has been dumped in great quantities in the rivers around New York. Some floats were placed in the river at different stages of the tide and their movements closely observed. One of those floats put in the East river traveled in 78½ hours a distance of 107¾ miles, at the end of which time it was picked up only a mile from the starting point. After learning this, need it cause any surprise to learn further that every year the department of docks and ferries dredges out some 400,000 cubic yards of deposit from the slips and docks of the lower East river, to say nothing of large quantities that are also dredged out by private enterprise.

# COMMERCE BODY SNUBS FINANCIERS

Geo. F. Baker, Successor to Morgan in Wall Street, Told to Await His Turn.

## MELLEN DIDN'T SAVE MORGAN

Attorney Ledyard Denies That Former New Haven President Held Law Off of the Late J. P. Morgan.

Washington, June 5.—George F. Baker, J. P. Morgan's successor as the dominating power in Wall street, and Lewis Cass Ledyard, attorney for Wall street interests, both directors of the New York, New Haven & Hartford railroad, received a snub from the interstate commerce commission. They announced their presence to Commissioner McChord at the opening of the New Haven inquiry and requested that they be placed on the stand at the conclusion of William Skinner's testimony. Mr. McChord rejected the request.

"We are unable to accommodate you," he said. "The inquiry must take its natural course."

The board of directors of the New York, New Haven & Hartford railroad reported to the road's stockholders that the company held \$10,400,000 worth of securities of the Billard company when no careful appraisal had been made to determine the actual value of the securities. Skinner stated when he resumed his testimony.

### Had Confidence in Mellen.

Witness had confidence in Mellen, for he was a man of large railroad and financial experience; in fact, he had so much confidence in Mellen's judgment that he never sold a share of New Haven stock in his life. He said minor details did not come before the board for "we had the best and highest paid railroad experts obtainable" to attend to them.

"Did not this investigation of the road serve to shock the road's credit?"

"Yes."

"You and your family have been large losers on New Haven stock?"

"Very large. I personally have been losing at the rate of \$40,000 a year."

"But you have not sold your stock. Why not?"

"Why, I expect the stock to recover and the New Haven to get on its feet again."

### Oath Barred, Ledyard Talks Gladly.

Mr. Ledyard volunteered to mount the stand before Interstate Commerce Commissioner McChord. But neither Chief Counsel Folk nor the commission would let him talk under oath. He was allowed to talk and talk and talk to his heart's content without one teeny-weeny interruption.

Mr. Ledyard declared that he spurned part of the plentiful spoils J. P. Morgan & Co. pocketed in connection with the famous flotation of the steel trust! The profits from that dazzling financial feat were computed, I think, at between sixty and seventy million dollars by the Pujo committee. So there was lots to go round. But Mr. Ledyard's conscience, as told hereafter, would not let him keep the share Mr. Morgan, much to the lawyer's surprise, sent to him.

### Denies Mellen Took Indictment.

Mellen did not save J. P. Morgan's life by taking an indictment properly belonging to the banker and in connection with which Mellen testified papers had been served upon Morgan.

## ILLINOIS BANKER IS DEAD

T. B. Needles, Prominent Republican, Dies at Seventy-Six.

St. Louis, June 5.—Thomas B. Needles, seventy-six years old, president of the First National bank of Nashville, Ill., died at St. John's hospital, where he had been ill three weeks of a complication of diseases. The body will be sent to Nashville and the funeral probably will be held Saturday. Mr. Needles was formerly a member of the Illinois legislature, a member of the Dawes Oklahoma commission and for 31 consecutive years was grand treasurer of the Odd Fellows. For more than thirty years he was prominent in the Republican party of Illinois.

## CLARKE TO SUCCEED SELF

Democratic Convention in Arkansas Indorses Wilson.

Pine Bluff, Ark., June 5.—The State Democratic convention declared United States Senator James P. Clarke, the nominee of the party to succeed himself, over Judge William F. Kirby, member of the state supreme court, who was contesting the nomination on the ground of fraud at the primary election. The nomination is equivalent to election. The convention endorsed Wilson's administration.

### War on Jews Brings Crisis.

St. Petersburg, June 5.—The financial situation has developed into a serious crisis. Transactions on the bourse were practically nil. The money crisis is attributed to the repressive action of the ministry against labor and the restrictions upon corporations in regard to Jewish control. It is said \$125,000 of foreign capital is being withheld until the situation alters. Minister Malakoff is working toward the elimination of Jews from Russian industry.

Mr. and Mrs. Cline of Franklin Grove were in the city Wednesday. Mrs. Henry Fischel visited here Wednesday from Franklin Grove.

## Dramatic Notes

### FAMILY THEATER.

The new bill at the Family Theater is a most pleasing one and both acts are a decided novelty. "Barton and Beel" appear in the latest society dances and created a most favorable impression. Their act is one of the novelties of the season. Madam Gertrude, who appeared here before was as strong a drawing card as ever. Pictures tonight are: "Whiffles Affinity," and the "The Secret Clue," in two parts.

BARTON & BEEL.  
In Society Dancing.

### PRINCESS THEATRE.

Tonight the Princess theatre will show a two reel feature, "The Silent Witness," a Broncho drama of modern life in which a dictaphone plays an important role. This is a fine detective story with many thrills and exciting scenes.

## IS SILLY OLD SUPERSTITION

Belief Connecting Friday the Thirteenth With Disaster, However, Seems to Have Strong Hold.

Every time Friday falls on the thirteenth of the month there are headlines in newspapers owned and edited by intelligent and decently educated persons connecting this conjunction of dates with ill luck and misfortune. The reason for the practise does not clearly appear. It may be that in some cases the persons perpetrating these scare heads know no better and really think that disaster may be expected when Friday and the thirteenth come together. There are people of good abilities and even high standing in the business world who are haunted by this ancient superstition; but it is fair to suppose that in most cases it is a mere journalistic trick to attract attention, or even a joke not supposed to be seriously taken by anybody. The truth is, however, that for many thousands of people who are educated enough to read the newspapers such paragraphs are as seriously taken as an account of an earthquake or a blizzard in the West. The practise feeds on superstition, encourages it and does more harm than thoughtful editors know. Many useless fears, anxieties and regrets would be avoided if all such superstitions could be swept out of the popular mind. The harm they do is incalculable, and their effects are seen in all the most important concerns of the common life, especially in morals and religion, to the enrichment of the specious swindlers who make the public pay a heavy tax on its superstitions.—Christian Register.

## Tomorrow, ONLY \$1 puts this NEW HOOSIER in your home on the famous Hoosier Plan.

You may choose between the celebrated "White Beauty," whose picture is shown here, and one of the other Hoosiers, finished inside in oak.

The terms of the Hoosier Plan are these:

1. \$1 puts the cabinet you choose in your home.
2. \$1 weekly quickly pays for it.
3. The Low Cash Price fixed by the factory prevails strictly.
4. No interest. No extra fees.
5. This sale is under direct supervision of the Hoosier Company.
6. Your money back if you are not delighted with your Hoosier.

Only those women who grasp this opportunity tomorrow can be sure of getting one of these cabinets on this liberal Hoosier Plan. You realize of course that these terms could not be offered except on a very limited number of cabinets.

After this sale—

1. The "Hoosier Plan" terms will be withdrawn.
2. Our regular furniture terms will then prevail.

**THE IMMEDIATE CLOSING** of this sale may be caused tomorrow by the number of women who enroll on this Hoosier Plan. If all the women who need Hoosiers should come tomorrow, our allotment would be taken before the night and the sale would close. This has happened in many similar sales throughout the country. On the other hand, if women delay the sale may last all week. This too has happened. Which now is best for you—to delay and take the chances of missing this opportunity or to come down tomorrow and find out about this cabinet so you can decide before it is too late?

It cannot take you ten minutes to decide, once for all, whether you intend to purchase now or later —And you are deciding, remember, whether or not you will save miles of unnecessary steps you now take.

But unless you at once decide, you may decide too late to own this greatest of all Hoosier cabinets on this liberal Hoosier Plan. 700,000 women already have Hoosiers. Thousands are buying this new Hoosier every week. You should without fail grasp your opportunity and see this cabinet tomorrow.

## Read About these conveniences that have made the HOOSIER necessary to over 700,000 Women

(1) Mrs. Christine Frederick's famous "Housekeepers' Food Guide"—on the upper left door—answers every woman's eternally perplexing problem—"What shall we have for dinner?" You turn the dial to the meat you want and a complete outline of a perfectly balanced meal is before you—an exclusive Hoosier feature that is an invaluable help.

(2) The Cook-book holder on the middle upper door holds your cook book securely when not in use. When you are cooking, simply open up the book to the proper page behind the holder. It is on a level with your eye, always clean, never in the way.

There are 40 special conveniences in the NEW HOOSIER—17 are entirely NEW.

(3) The Hoosier Metal Flour Bin holds fifty pounds. It is low and easy to fill. The sliding glass front enables you to clean the entire bin easily. The inside is entirely of metal, with no corners to hold flour. First flour in is always out first.

(4) The New Shaker Flour Sifter is the most wonderful of all the New Hoosier inventions. It is the only flour sifter ever made on a kitchen cabinet that shakes flour through instead of grinding it through. It cannot wear out and cannot grind through any grit or foreign substance that might be in the flour.

Twenty of these features are described in OUR WINDOW DISPLAY, which is the talk of the town. Come in and find out about the others.

(5) A Big, Extra-Roomy Drawer in the base is made entirely of metal for the proper storage of all kitchen linen, towels, dish cloths, etc. The drawer is noiseless, dustless, and easy to keep clean.

(6) A new feature in the Base Cupboard is a narrow shelf conveniently located for the storage of canned articles. Most women will find this a great convenience as an "emergency shelf." It will save many trips to the cellar or pantry.

**TOMORROW YOU** may examine all the new features. You incur no obligation. But you should come early so you can study them all carefully. Our stock of White Beauty patterns is limited. You may be too late to get one on the HOOSIER PLAN if you delay. Come and SEE this remarkable NEW Hoosier tomorrow.

The Canadian inspector looked at her ticket and said, according to Mrs. Jones: "You're not going to Vancouver. You're going to Nanaimo to kick up a disturbance among the miners, and you can't go."

## 36 PLUMBERS ARE HELD

Des Moines, Ia., June 5.—Indictments were returned against 36 officials and members of the National Association of Master Plumbers and officials of state organizations in Illinois, Wisconsin, Minnesota, Michigan, Missouri, Nebraska and Iowa by the federal grand jury here. ## RAIN ENDS WILSON SPEECH

President Drenched at Unveiling of Confederate Monument.

Washington, June 5.—A terrific thunderstorm broke over Arlington National cemetery while President Wilson was addressing a great crowd gathered for the unveiling of the monument erected to the Confederate dead. Torrents of wind-driven rain drenched the blue and gray veterans, women and children before they could seek shelter. The president, who had cut short his speech as the rising wind and darkening skies announced the storm's coming, hurried to his car with his two daughters, Mrs. McAdoo and Mrs. Sayre. They were inside before the rain came, but the machine's top afforded poor protection and the party was drenched on the seven-mile drive back to Washington.

Mrs. Daisy McLaurin Stevens, president general of the United Daughters of the Confederacy, made the address presenting the monument to the president in behalf of the women of the confederacy. Tomultuous applause greeted her. Gen. Washington Gardner, commander in chief of the Grand Army of the Republic, and Gen. Bennett Young, commander in chief of the United Confederate Veterans, were notable figures among the speakers. The dominant figure of the monument unveiled is a woman of heroic size, typifying the South in peace.

## 2 FALL FROM BOAT IN RACE

Vanitie's Sailors Rescued, But Vessel Loses Event.

Rye, N. Y., June 5.—The third race of the initial series for the America's cup defense candidate yachts on Long Island sound was won by the flag officers' sloop, Resolute, after the Vanitie withdrew while in the lead in order to assist in the rescue of two members of its crew who had been washed overboard during the first leg of the race. Once the Gardner-designed single-sticker dropped out of the race the Resolute was assured of a hollow victory, and the contest originally planned to be an 18-mile race was shortened half that distance, and the Herreshoff craft crossed the finish line 53 minutes and 41 seconds after the start.

Butler was brought here by the sheriff, pleaded guilty to the charge of disorderly conduct and was sentenced to the Kings county penitentiary for six months. Justice Moorehouse then suspended sentence and paroled him.

### SCIENTISTS PROBE INTO VOLCANIC ERUPTION.

Redding, Calif., June 5.—Scientists have gone from Mineral City to investigate the cause of the eruption of Mount Lassen, the southern terminus of the Cascade range. The members of the expedition will endeavor to learn whether a new volcanic eruption really occurred or whether the disturbance merely was the outbreaking of a new geyser. After eighteen hours of activity the crater remained quiet today.

Graduates, have your cards printed or engraved at the Evening Telegraph office.
